Mission:

Provide employers leading-edge healthcare cost containment strategies in a collaborative Think Tank environment by offering workshops, roundtables, webinars, pilots, case studies, along with strategic initiative teams to advance the development and implementation of innovative methodologies.

Community:

The Association for Corporate Health Risk Management (ACHRM) Members are predominantly professionals who are responsible for managing health risks and containing healthcare costs for their organizations (for-profit, not-for-profit, foundations, and public entities) ranging in size up to 30,000 employees or members. These professionals include CEOs, CFOs, COOs, HR Directors, Risk/Benefit Managers, Wellness Directors, Medical Directors, Informatics, Safety / Facilities Managers, among other professionals.

In addition to our employers, ACHRM's community includes best-in-class, disruptive solution providers, national thought leaders, and leading-edge health insurance consultants, and medical travel facilitators. These memberships and sponsorships are only granted on a select basis.

ACHRM also values relationships with other membership based organizations and trade associations. ACHRM has offered panels and other collaborative efforts at conferences and other events. These groups have also participated in ACHRM's Strategic Initiatives.

Strategy:

Engage forward-thinking, innovative and committed select health insurance brokers, consultants, and medical travel facilitators throughout the US to assist with advancing ACHRM's Mission. To enable these influential professionals to most effectively engage with ACHRM's community, ACHRM shall only offer one membership opportunity per market. ACHRM would anticipate offering one or two joint events with these professionals.
